

The Job Seeker AI Prompt Kit

55 prompts to tailor resumes, write cover letters, and prep for interviews.

RESUME

1. Rewrite this bullet to lead with impact and a number: [BULLET].
2. Tailor my resume summary to this job description, keeping it truthful: [JD] / [SUMMARY].
3. Turn these responsibilities into achievement bullets with metrics I can confirm: [DUTIES].
4. Find the keywords in this job description an ATS will scan for: [JD].
5. Shorten my resume to one page by cutting the weakest 30%: [RESUME].

COVER LETTERS

1. Write a 200-word cover letter for [ROLE] at [COMPANY] using these three achievements: [ACHIEVEMENTS].
2. Rewrite this cover letter to sound like me, not a template: [LETTER].
3. Write a short note to send with a referral from [NAME].

INTERVIEW

1. Give me 10 likely interview questions for [ROLE] and a STAR-format answer outline for each.
2. Play the hiring manager for [ROLE] and interview me one question at a time.
3. Turn this rambling answer into a tight 60-second STAR answer: [ANSWER].
4. List smart questions to ask the interviewer for [ROLE] at [COMPANY].

SEARCH

1. Draft a LinkedIn message to a recruiter at [COMPANY] about [ROLE].
2. Write a follow-up thank-you email after interviewing for [ROLE].
3. Help me negotiate an offer of [X] for [ROLE] given market data.
4. Write my LinkedIn headline and About section for a [ROLE] targeting [INDUSTRY].
